ABOUT US

THE ELEVATION PLATFORM is the online Portal of SUPER ELEVATION INTEGRATED VENTURES. We are officially registered with the Corporate Affairs Commission, Nigeria.

Registration ID: RC- 2684508

Operational Office Address:

101 East West Road, Rumuodara, Port Harcourt.

OUR VISION STATEMENT

To build a business that serves the public and creates an ecosystem that meets the needs of the masses, through several integrated services.

OUR MISSION STATEMENT

To improve the pattern and procedures of shopping, advertising, training and currency exchange in a modern digital world. We are committed to creating a standard for business transactions online and offline.

GENERAL OVERVIEW

The Elevation Platform, as well as SUPER ELEVATION INTEGRATED VENTURES is committed to Four (4) basic services, which include:

- (1) Online and Local Shopping
- (2) Crypto Training
- (3) Business Advertising
- (4) Currency Exchange

WHY WE CREATED A CRYPTOCURRENCY

We didn't wake up suddenly to start building or developing another token or cryptocurrency, there are thousands of coins/tokens in the market already and a lot more will still be coded into various blockchain networks; but this project is actually like 'a correction' project/token.

This project is aimed at proving to the world that CRYPTOCURRENCY IS REAL.

Also, this project will prove beyond all reasonable doubt that PEOPLE CAN STILL MAKE HUGE PROFITS FROM ICOs AND CRYPTOCURRENCY.

This project will reassure all those who have lost confidence in online investment as well as cryptocurrency investment and trading, proving to them that their losses can still be recovered with a good project like this.

A lot of people have lost money in the past because of wrong investments. While these investments looked so promising at first, they later turned out to be shallow projects with no reasonable product to back up the token's value.

Investors had no other choice than to sell off, dump everything and abandon the project. This is the actual game with very many projects that started way back late 2017 and early 2018; many of them are dead and some are in coma now – no reasonable output, no product, no value and no profit. This goes to prove one big fact: *Don't waste your money and time on tokens/coins with good name and hype, but no reasonable project/product to back them up.*

The real problem is that Airdrops and free coins draw much attention to projects and people become carried away by the hype without doing a thorough investigation and research about the project itself. Hypes will come and go but what about your money and investment?

Doing a thorough research and understanding a project is more important than rushing in to try and take some profits. This is why I advice everyone here right now, **please, don't ever invest in any project if you don't understand what it's all about.** Again, please **DON'T INVEST ANY MONEY IF YOU HAVE NOT READ THE WHITEPAPER [Very Important].**

Even on the Elevation Project, we need your understanding of our vision and mission more than we need your money.

WHAT PROBLEM ARE WE SOLVING?

The big problem right now is that very many projects have no value because there is no use case to back them up. Many project developers only code/build their coins/tokens, not the actual project. When ICO is done, investors keep waiting and waiting and they also keep getting empty promises with no real work to add value to the project.

Also, most crypto developers have made cryptocurrency look like a pseudo-online-joke, run by various puppeteers. Everything starts and ends online; developers are either anonymous or hidden or they are locked up in their closet – no shows, no seminars, no real public events to create awareness at all; the project starts and ends on their website alone.

This unfair drama reveals that there are some greedy scammers behind the scene, with the intention of accumulating thousands of Dollars, Bitcoins and Ethereum into their pockets, but their project has no real world evidence; it doesn't present real products and cannot interest or attract the masses.

The Elevation Platform is aimed at correcting these anomalies. We are here to put things right and run the game the way it ought to be

WHAT MAKES US DIFFERENT?

(1) Online and Offline Shopping:

[Easy conversion of other currencies to EVT's]

Over the years, there has been a challenge of shopping online with various currencies in the world. Many online stores have limited variety of accepted currencies and they shut out all those without such currencies. While we also maintain and adhere to accepting only our Elevation Tokens (EVT's) for the purchase of goods and payment for services on our platforms, we shall integrate a mini exchange into our platform to accommodate several other currencies (both crypto and fiat) that buyers may come with.

Our mini exchange will convert your digital (or fiat) currencies to our Elevation Tokens (EVT's) with ease and you can shop immediately on our platform. With this idea, we will

accommodate all kinds of people from various parts of the world and shopping will be limitless.

(2) Turning Delivery Centers to Local Stores:

[Not just online, but visible in your locality]

Most online stores usually don't have a physical base or location where goods are stocked, they only have delivery centers to pick up goods after buyers have paid online. This is because their goods are limited or there is no visible warehouse. While we plan to start with the online store and some delivery centers, we shall gradually turn those delivery centers to real local stores (filled with goods). People can easily walk into our local stores and make purchases directly and pick up their goods immediately with their EVT's. With this idea, we would serve both online shoppers and other people in various locations where our local stores exist.

3. Training Non-Crypto Enthusiasts:

[Reaching out to those who have never heard of Bitcoin or EVT]

Our online and local stores as well as our Crypto Academy will be structured to process payments only with our Elevation Tokens (EVT's) cryptocurrency. What about those who are non crypto-literate? What happens to the common man on the street who knows nothing about Bitcoin or Ethereum or Elevation Token, yet he desires to shop with us? Should we shut him out because he knows nothing about crypto? No! An agent at the online or local store can quickly coach the person on how to get some EVT's and make payments instantly. After the brief coaching and shopping, the agent then recommends that he should improve on his crypto knowledge in our crypto academy. Such a person can enroll in our crypto academy and be trained successfully on how cryptocurrency works and how to use it. This is why our crypto academy is very important.

(4) Business Advertisement:

[A platform to showcase your Business to the World]

We anticipate that our services shall attract massive traffic to our website. People will conveniently do multiple transactions on our integrated platform with ease. Our advertising section will be very busy promoting several businesses and various organizations online and offline and they will pay us with Elevation Tokens (EVT's). Several advertising slots will be available on our general portal, online store portal, crypto academy portal and our mini exchange portal.

THE USE CASE OF ELEVATION TOKENS

What will Elevation Tokens be used for?

In Cryptocurrency, the use-case of a coin is paramount to its exposure and acceptance. When a coin has a valuable use-case, it will be very easy to attain mass adoption and general acceptability.

We are delighted to inform you that our Elevation Token has a lot of use-cases. Also, our official commercial price, as it will be accepted on our platforms will rate 1 EVT = \$0.5.

All those who will participate in our Pre-Sale and ICO will reap massive profits because of the use case and the value we shall officially attach to Elevation Tokens (EVTs).

Below are various Use-Cases for EVT:

1. Payment for Online/Offline Shopping: When our project launches fully, Elevation Tokens (EVTs) will become very valuable. The EVTs will be used to shop in our online and local stores worldwide; buyers will be required to place orders using the EVTs, while sellers will accept EVTs as payment for goods and/or services rendered.

2. Payment For Crypto Training: The Elevation Token (EVT) will be the only payment processor for our cryptocurrency training. All new students will be required to pay tutorial fees with EVTs. We will also integrate the EVT payment portal on the Cryptocurrency Academy portal.

BEGINNER COURSE	INTERMEDIATE COURSE	ADVANCED COURSE
<i>Duration: 1 Month</i>	<i>Duration: 2 Months</i>	<i>Duration: 3 Months</i>
<i>Fee: 200 EVT</i>	<i>Fee: 400 EVT</i>	<i>Fee: 500 EVT</i>

3. Payment for Advert Slots: Businesses and organizations will be required to purchase some EVT's for placing adverts on our platform. We shall structure out various advert slots with certain required number of EVT's.

4. Exchange Fee for Converting currencies: Usually, exchanges take some transaction fees for converting from one currency to another. Our Mini Exchange will also charge certain transaction fees when people use the service. Our exchange transaction fees shall be charged in EVT and this applies to every exchange process that is done, either per transaction or for multiple transactions.

WALLETS FOR ELEVATION TOKEN

The Elevation Token is Ethereum based, so we recommend the following wallets below to keep your tokens. While we maintain that these wallets are safe for holding your EVT tokens, we strongly recommend that users should be vigilant and protective to prevent hackers and scammers from getting access and stealing their funds.

You can use the following wallets:

(1) **myetherwallet.com** (FOR PC/LAPTOP USERS)

(2) **imToken Mobile App** (FOR MOBILE USERS)

WALLET SECURITY AND TRANSACTION SPEED:

Wallet Security:

Ethereum Blockchain standard, secured by Private keys and strong passwords

Transaction Speed:

2-3 minutes.

Transaction Confirmation:

All transactions are confirmed on the Ethereum blockchain with each hash

EXCHANGE LISTING AND TRADING

We are already in talks with some exchanges to list EVT; we will update info when confirmed. Please be informed that exchange listing and trading of EVT will officially commence after Coin Distribution in February-March 2019 as stated in our Road Map.

THE OFFICIAL VALUE OF ELEVATION TOKEN (EVT)

When we launch our services fully, the value of Elevation Tokens (EVT) shall be rated at \$0.5/token. All goods in our online / local stores will be sold using \$0.5/token of EVT. For example, a mobile phone worth \$100 will be sold at 200EVT (that's \$1 = 2EVTs). This same value applies to other services such as our Crypto Academy fees and all Advertising Slots that shall be offered to businesses and organizations.

We shall maintain the price and continually improve on it with all our services; it will be very difficult for the price of EVT to crash down. This will give back massive profits to all investors who joined the Presale and ICO stages of the project.

PROFIT CALCULATOR

For Example, if you invest \$200 into our Presale at \$0.005 per token, you will get 40,000 EVTs, after our full launch, the official value will rise from \$0.005 to \$0.5, that \$200 investment will return a 100x value, that's \$20,000. This is real, no jokes, no hypes!

Also, if you invest \$200 into our ICO at \$0.1 per token, you will get 2000 EVTs, after our full launch, the official value will rise from \$0.1 to \$0.5, that \$200 investment will return a 5x value, that's \$1000. Why are we so confident about the future value of EVT? It's because we have several use cases for our token, once again, be reminded that **This is NOT a shit coin.**

HOW WILL THE PRICE OF ELEVATION TOKEN (EVT) BE SUSTAINED AND MAINTAINED?

Our online and local stores, our Crypto Academy, our Business advertising slots and Crypto exchange will be used as viable tools to constantly stabilize the price of Elevation Tokens (EVTs). As stated earlier, all our stores and services will rate EVTs at the value of \$0.5/per token. When we set the prices of our products at the online/local stores at \$0.5 per token, it will be difficult for people to go and dump the tokens at the exchange. It will be unreasonable for someone to sell his/her tokens for \$0.1 or \$0.3 when they can easily buy goods from our stores at \$0.5 per EVT.

With the strategy described above, more people will be attracted to buying goods, instead of dumping at the exchange. When the tokens are under control, we can gradually maintain the value of EVT and determine the price at the exchange too. By this, even traders on various exchanges will gradually adjust to setting their sell orders at \$0.5 per EVT. This is practically possible because Elevation Token is not a shitcoin; we have real world applications and valuable use-cases for our token.

THE ELEVATION PLATFORM (TEP) PUSHING FOR WORLDWIDE ADOPTION

We have a reliable strategy that will propagate the awareness of The Elevation Platform and the Elevation Tokens (EVTs) to spread worldwide and reach the masses.

We will gradually push for worldwide mass adoption through the following means:

- *Seminars and Presentations
- *Continuous opening of local stores and Crypto Academies in various parts of the world
- *Trainings and Empowerment Schemes
- *Special offers and bonuses
- *Several Partnerships across the world
- *Recruiting of various TEP (The Elevation Platform) coordinators worldwide

How will TEP coordinators be Recruited Worldwide?

All over the world, we shall recruit Five (5) Categories of TEP Coordinators as follows:

- (1) National TEP Coordinators:** A National TEP Coordinator should either be a Pre-Sale investor in this project or the First investor from that country, he/she will oversee all the Regions / Zones in that country. There are other terms and conditions; such a person should be capable of creating awareness about The Elevation Platform in that Country and he/she should recruit more investors from that country too.
- (2) Regional TEP Coordinators:** A Regional TEP Coordinator should be a Pre-Sale investor or the first investor from that region, though there are other terms and conditions, but such a person should be capable of creating awareness about The Elevation Platform in that region and he/she should also recruit more investors from that region. A Regional TEP coordinator will oversee all the states in a Zone (North-East region, South-South region, South-East zone or West)
- (3) State TEP Coordinators:** A State TEP Coordinator should be a Pre-Sale investor or the First investor from that state, though there are other terms and conditions to qualify, but such a person should be capable of creating awareness about The Elevation Platform in that State and he/she should be able to recruit more investors from that state. A state coordinator will oversee all the cities in that state.

(4) City TEP Coordinators: A City TEP Coordinator should be a Pre-Sale investor or the First investor from that City; though there are other terms and conditions to qualify, but such a person should be capable of creating awareness about The Elevation Platform in that City and he/she should recruit more investors from that City. A City TEP coordinator will oversee all the towns in that city.

(5) Town TEP Coordinators: A Town TEP Coordinator should be a Pre-Sale investor or the First investor from that Town; though there are other terms and conditions to qualify, but such a person should be capable of creating awareness about The Elevation Platform in that Town and he/she should recruit more investors from that Town. A Town TEP coordinator will oversee all the areas in that Town.

NOTE: All TEP coordinators **MUST** officially apply to work with us; there are numerous benefits which will be disclosed later on as the project progresses.

HOW TEP LOCAL STORES WILL RUN WORLDWIDE

All TEP Local Stores will be managed by two sets of Merchants:

- (1) TEP Partners
- (2) TEP Store Managers

TEP PARTNERS

These are real store owners or service providers who desire to start accepting EVT for goods sold at their stores or services rendered; they will place the EVT banner in front of their stores or offices for people to come and buy goods or use their service with EVT payments.

- *They own and manage the stores/services
- *They are entitled to selling EVTs in our exchange at \$0.6/per token, while all goods sold at their stores will rate EVTs at \$0.5/per EVT token. All TEP partners shall have access to a special exchange portal for cashing out
- *They are entitled to FREE massive publicity and adverts of their stores/businesses
- *They are recognized as official partners of TEP in their locations
- *They are entitled to Free Trainings and Seminars

The factors above are subject to change depending on the decisions of TEP management and partners around the world.

NOTE: All TEP Partners **MUST** officially apply to work with us; there are numerous benefits which will be disclosed later on as the project progresses.

TEP STORE MANAGERS

These are individuals who do not own stores/businesses, but desire to serve as Managers in any of TEP local stores worldwide.

While this cannot be guaranteed urgently because we will gradually expand our stores as demand increases, we also encourage such people to start doing massive publicity of TEP in their locality to increase demand; this will make the management of TEP to look at their location for store opening and they will emerge as managers of such stores.

*They will be accountable to TEP head quarters in their country of residence

*They will ensure the security of all goods in the store

*They will be recognized as official representatives of TEP in their locations

*They will be entitled to Free Trainings and Seminars

The factors above are subject to change depending on the decisions of TEP management and managers around the world.

NOTE: All intending TEP Managers **MUST** officially apply to work with us; there are numerous benefits which will be disclosed later on as the project progresses.

All TEP local stores will have three main official workers:

(1)The Store Manager: This is the person that oversees all transactions in that store and reports back to the head office when due (weekly or monthly)

(2) The Sales Rep: Usually a sales lady or young man who will always attend to customers who walk into the store

(3)The IT Expert: This person will be in charge of a laptop that monitors all crypto payments from various wallets of customers coming to buy goods; this person **MUST** verify and confirm payments online before goods are released to the buyers at the store.

All three (3) people listed above **MUST** enroll and be trained at our crypto academy to qualify for their jobs.

As our project progresses worldwide, we shall gradually offer both trainings and employments to several thousands and millions of people around the world.

13. Binding arbitration

PLEASE READ THIS SECTION CAREFULLY – IT MAY SIGNIFICANTLY AFFECT YOUR LEGAL RIGHTS, INCLUDING YOUR RIGHT TO FILE A LAWSUIT IN COURT

13.1 Initial Dispute Resolution

The parties shall use their best efforts to engage directly to settle any dispute, claim, question, or disagreement and engage in good faith negotiations which shall be a condition to either party initiating a lawsuit or arbitration.

13.2 Binding Arbitration

If the parties do not reach an agreed upon solution within a period of 30 days from the time informal dispute resolution begins, then either party may initiate binding arbitration as the sole means to resolve claims, subject to the terms set forth below. Specifically, all claims arising out of or relating to these Terms (including their formation, performance and breach), the parties' relationship with each other and/or your use of the Service shall be finally settled by binding arbitration subject to due consultation by all parties involved.

The arbitrator, and not any federal, state or local court or agency, shall have exclusive authority to resolve all disputes arising out of or relating to the interpretation, applicability, enforceability or formation of these Terms, including, but not limited to any claim that all or any part of these Terms are void or voidable, or whether a claim is subject to arbitration. The arbitrator shall be empowered to grant whatever relief would be available in a court under law or in equity. The arbitrator's award shall be

written, and binding on the parties and may be entered as a judgment in any court of competent jurisdiction.

The parties understand that, outside this mandatory provision, they would have the right to sue in court and have a jury trial. They further understand that, in some instances, the costs of arbitration could exceed the costs of litigation and the right to discovery may be more limited in arbitration than in court.

13.3 Exception - Litigation of Intellectual Property and Small Claims Court Claims

Notwithstanding the parties' decision to resolve all disputes through arbitration, either party may bring an action in state or federal court to protect its intellectual property rights ("intellectual property rights" means patents, copyrights, moral rights, trademarks, and trade secrets, but not privacy or publicity rights). Either party may also seek relief in a small claims court for disputes or claims within the scope of that court's jurisdiction.

The Terms and the relationship between you and The Elevation Platform, as well as Super Elevation Integrated Ventures shall be governed by the laws of the Federal Republic of Nigeria as long as those laws do not conflict with our Terms and Conditions.
